

CONFERENCE LOGISTICS

ACTIVELY INTERACTIVE

WORKSHOP SESSIONS

Workshop sessions are limited to 20 persons to ensure that all participants have access to an individual computer.

PREBOOKING

To ensure you are able to attend all your presentations and workshops, you are able to prebook via our website: www.ictcv.vic.edu.au/event/form

WIRELESS CONNECTIVITY

Total wireless connectivity for delegates - is this a first for Victorian education?

ICTEV is proud to be able, through the sponsorship of iBurst, to provide all delegates with wireless connectivity to the internet for the first time at its annual conference. This also means of course access to web emails and LAN where relevant.

iBurst will also be offering a 'conference special' for teachers who might like to take up their own membership of this wireless network. Delivering consistent 1 Mbps real-world user data rates today (with 2 Mbps coming in the next system release), quality coverage, and range exceeding cellular networks even in challenging urban environments, the iBurst system delivers excellent network performance. Come and try it free for yourself! All details to enable you to log on with your own laptop will be provided on registration.

CATERING

The annual conference is fully catered with continuous tea and coffee facilities. Those with special dietary requirements should complete the appropriate section on the registration form.
